CERTIFIKAT COACHING PSIHOLOGIJA PREJME

ANDREJA JALEN

je med oktobrom 2024 in aprilom 2025 uspešno opravila 60-urno usposabljanje iz coaching veščin. Na usposabljanju smo gradili na miselnosti rasti in povezanih osebnostnih kompetencah, pomembnih za coacha: asertivnost, ciljna naravnost, čustvena inteligentnost, doslednost in osebna agilnost. Na najvišji operativni nivo smo dvignili veščine doseganja rezultatskih ciljev s "performance coachingom" in veščine doseganja procesnih ter razvojnih ciljev z "razvojnim coachingom". Ob tem smo na usposabljanju poglobili temeljna področja psihologije motivacije, psihologije vplivanja in psihologije uspešnega timskega dela. Usposabljanje se je zaključilo s teoretičnim izpitom in praktičnim prikazom coaching veščin.

CERTIFICATE RECEIVES

ANDREJA JALEN

successfully completed a 60-hour training in coaching skills between October 2024 and April 2025. During the training, we built on growth mindset and related personality competencies important for a coach: assertiveness, goal orientation, emotional intelligence, self-regulation and personal agility. We have raised the skills of achieving result goals with "performance coaching" and the skills for achieving development goals with "development coaching" to the highest operational level. We deepened the understanding of fundamental areas of psychology of motivation, psychology of influence and psychology of successful teamwork. The training ended with a theoretical exam and the practical demonstration of coaching skills.
